ENGAGEMENT & PROPOSAL PHOTOGRAPHY

1 HOUR
$650

INTIMATE. NATURAL. MEANINGFUL.

Kahua is designed for couples at the beginning of something lasting. Whether the proposal is still a surprise or the two of you are celebrating the engagement afterward, the session is built to feel easy, personal, and true to who you are.

With up to one hour together, there is time for lightly guided portraits, natural interaction, meaningful details, and the small moments that make the photographs feel like yours. I offer enough direction to keep things comfortable while leaving room for the expressions and movement that happen naturally between you.

The result is a finished collection that holds onto this first chapter clearly; not as the whole story, but as the place where it began.

Engagement + portraits

Whether the proposal is still a surprise or the two of you are marking the engagement afterward, the session is designed to feel relaxed, natural, and personal from beginning to end.

I offer light direction when it helps, then leave room for the expressions, movement, and small interactions that happen naturally between you. The goal is a balanced collection of guided portraits, meaningful details, and genuine moments that feel polished without feeling overly posed.

For surprise proposals, the planning beforehand helps everything come together quietly and intentionally, so the moment itself can remain yours.

READY WHEN YOU ARE

Every story needs somewhere to begin

Kahua *(foundation)* is about the beginning — the question, the answer, and the first photographs of the life you are choosing to build together. These photographs hold onto this moment as it is now, so years from today you can return to where everything began.
