PORTRAITS WITH PURPOSE

Made for who you are
Created for what you need

Portraits can mark where you are in life, celebrate the people beside you, reflect the work you care about or become part of something you're creating. Whatever brings you in front of the camera, the goal is to create photographs that feel warm, confident and unmistakably yours. Images that help you feel seen, connected and proud of the person they represent.

ONE PHOTOGRAPHER, ONE VISUAL VOICE.

From our first conversation through the final photographs, you know who is behind the camera. Jesse personally photographs every portrait session, bringing the same perspective and care from the planning through the final edit.

That continuity helps the experience feel relaxed, personal, and centered on you. We shape the session around how you want to be seen, creating space for expression, confidence, connection, and the details that make the photographs feel genuinely yours.

When the session is over, the same perspective carries into the edit, creating a collection that feels connected, intentional, and unmistakably you.

MORE THAN A PHOTOGRAPH

A strong portrait can do more than document what you look like. It can introduce you before you enter a room, preserve a connection you never want to lose, give shape to a creative idea or remind you of a version of yourself worth remembering. The difference is in how intentionally it is made. Expression, environment, light, posture and small details work together to create an image with presence. The goal is not simply to make you look good. It is to create photographs that feel considered, distinctive and worth keeping. Whether the images live on a wall, a website, an album cover, a publication or only with the people closest to you, they should carry something of you with them.

The right portrait should feel like a reflection, not a performance. Thoughtful guidance creates natural photographs that still feel familiar and wholly yours.

AT A GLANCE

Portraits with something to say

A focused portrait experience created to feel personal, purposeful, and expressive—whether the photographs are for you, your work, or a creative idea.

Aka

Personal Portrait Photography.

1 HOUR

$500

Personal + professional + creative portraits

Aka is designed for one or two people, with the session shaped around how you want to be seen and how the photographs will be used. Whether personal, professional, editorial, or creative, the experience stays relaxed, thoughtfully guided, and focused on creating images with confidence, personality, and presence.

WHEN YOUR SESSION NEEDS MORE ROOM

Aka is designed for one or two people and a focused one hour portrait experience. If you need more time, another location, wardrobe changes, or a more involved creative concept, the session can be expanded. For families or larger groups, ‘Ohana provides the additional time and flexibility those sessions need.

Made for the people who matter most

‘Ohana is designed for families and larger groups, with enough time to bring everyone together comfortably, creating photographs that feel connected, natural, and full of personality.

THE SERVICE STANDARD

Made with care, finished with intention

Every portrait session is shaped with care from planning through final delivery, so the experience feels personal and the finished photographs feel intentional, polished, and distinctly yours.

1 **Photographed By Jesse**
Jesse personally photographs every portrait session, bringing a consistent visual perspective and attentive direction to the people, expressions, and details that give each session its own character.

2 **Thoughtful Planning**
We shape the timing, location, and overall flow around what you need, creating the conditions to photograph you with intention—honoring who you are while giving form to how you want to be seen.

3 **Finished With Care**
Each photograph is individually refined for color, tone, balance, and detail, with careful editing that brings the photograph to its strongest final form.

4 **High Resolution Photographs**
Your final images are delivered as high-resolution JPEG files, ready to save, share, and print wherever you choose.

5 **Thoughtful Delivery**
Your finished photographs are delivered digitally once editing is complete, keeping the handoff straightforward and focused on the final images themselves.

6 **Finishing Touches**
Light portrait retouching is included as part of the finishing process, using a restrained approach that preserves natural texture, expression, and character.

7 **For Personal Use**
Your finished photographs are yours to print, share, display, and enjoy for personal use in whatever way feels right for you.

8 **Additional Coverage**
If your session needs more time, another location, or a more involved portrait concept, additional coverage can be added by arrangement.

9 **Guided Throughout**
Jesse provides clear direction with positioning, expression, and movement throughout the session, so you always know what to do while your personality comes through.

GOOD TO KNOW

Clear expectations. No surprises.

PLANNING CONSIDERATIONS

- Finished images only
- Single photographer coverage by Jesse
- Print recommendations available upon request
- Session planning focused on photography
- Off-island travel arranged separately
- Weather may affect outdoor sessions
- Portrait sessions are location based

A FEW PRACTICAL DETAILS

Portrait sessions are designed around one primary location. What we're able to create naturally depends on timing, access, weather, available light, and the character of the setting we choose together.

Travel throughout Hawai'i Island is included with your session. Off-island or overnight travel can be arranged separately when needed for the session.

Your collection is delivered digitally. Printed products are not created in-house, but trusted print services can be recommended for something tangible to keep or share.

From hello, to final photographs

Every step is kept clear, personal, and thoughtfully guided, so the photography fits naturally around the experience rather than asking the experience to fit around the photography.

1. **Let's Connect** — We'll talk through what you're looking for, how you want to be photographed, and what you'd like the finished images to accomplish.
2. **Make It Yours** — We'll shape the details around what feels right for you, then put everything in writing so the experience feels clear from the start.
3. **Secure Your Session** — A 50% retainer secures your date and is applied toward the total, keeping everything simple and confirmed from the start.
4. **Plan The Flow** — We'll shape timing together so the session feels natural, with room for direction, expression, and the photographs we've planned to create.
5. **Time To Create** — You can focus on being present while Jesse guides positioning, expression, and movement, creating the portraits we've thoughtfully planned together.
6. **Refined With Care** — Afterward, your photographs are carefully selected and edited, with attention to color, tone, balance, and detail so each image feels complete and ready for delivery.
7. **Ready To Share** — Your finished high-resolution photographs are delivered digitally, ready to save, print, share, and return to whenever you choose.

READY WHEN YOU ARE

Let’s make something Worth keeping

Made with care, your portraits reflect your na’au (heart and inner self), sharing something of who you are with the people who see them.
